

PREVENTIVE CARDIOLOGY & REHABILITATION

Preventive Cardiology helps those who already have heart and vascular disease and those who are at high risk of developing it.

Our programs are created specifically to cater to individual needs and our services may be accessed through self referral and/or through a referral from your family physician or cardiologist. We offer following programs:

- **EECP (ENHANCED EXTERNAL COUNTERPULSATION)**
- **CARDIAC WELLNESS** including **CONGESTIVE HEART FAILURE**

BRAMPTON CARDIO PULMONARY SERVICES

EXCEPTIONAL CARDIAC CARE IN YOUR COMMUNITY

Welcome to Brampton Cardio Pulmonary Services

Brampton Cardio works with you and your family doctor to develop a personal health plan that will identify your health needs, set goals for achieving them and monitor your success in moving toward a healthier you. We are committed to prevent, detect and manage heart disease.

Office Hours

Our general office hours are: Monday through Friday, 8:30am – 6:00pm and Saturday by appointment.

Phone Information

Our main phone number is (905) 455-3010. Our fax number is (905) 455-3011.

We value your time and do our best to personally answer every call. If however you do get our voice mail during regular business hours, please leave a message and one of our staff will get back within 4 business hours. If you call after hours, we will get back to you the next business day.

Cardiology Services

The Cardiology services we perform on site include cardiac stress testing, echocardiography, stress echocardiography, vascular studies, pulmonary function studies, and holter monitors. The doctor or professional technicians and staff will explain all tests and procedures to you.

Scheduling Appointments

We do our best to schedule appointment times that are convenient for you.

Cancelling Appointments

We understand that unexpected issues come up that require patients to cancel and reschedule their appointments. We ask for at least 24 hours notice when canceling or rescheduling your appointment. This will allow us time to schedule another patient who may be in need of urgent care. We also ask that you call us if you are going to be late for your appointment.

Urgent appointments

If you NEED AN URGENT APPOINTMENT you may not be able to see your REGULAR PHYSICIAN - however all of our QUALIFIED PHYSICIANS WILL HAVE ACCESS TO YOUR FILE and you will be seen by the FIRST available physician.

How do I get my results?

Your consultation letter and all test results are forwarded to your family doctor. We work with your family doctor to provide you with the best possible care. You will get your results at your next follow up appointment.

What To Bring To Your Appointment

You should arrive for your appointment about **five minutes early** to check in at the front desk. Each time you come please bring the following

- Your health card so that we can update all your information
- **All your current medications.**
- Any recent tests since your last visit (blood, x-ray MRI etc)

There are different doctors and procedures being done at all times - please check in upon arrival and if there is going to be a wait - the receptionist will offer you several alternatives

Prescription Refills

Prescription refills are taken care of during your scheduled appointment. This allows your physician to verify the medicine you are taking and make any changes if necessary. We do not repeat prescriptions over the phone.

If you need a routine refill between office visits, you can call your pharmacy and family doctor. If there are questions about your medicine refill, your pharmacist will contact our office.

Hospital Emergency and Admissions

If you are admitted to hospital or are in the Emergency Department- let the doctor who is treating you know that you are a patient of Brampton Cardio. In hospital you will be seen by a community cardiologist. When you are discharged, call our office for an appointment and we will follow up your care. Note: We will be able to access any tests or treatment done during your hospital stay.

Our Providers

Dr. Laurie Hill- Medical Director
Dr. Ursula Jurt
Dr. Kamal Joshi

Release of Medical Information

Federal and provincial laws require all health providers to maintain patient privacy. For patients 18 years of age or older, no health information can be released to another party without the consent of the patient, even to a spouse or other relative. We cannot release medical information without the patient (or parent) signing an authorization to do so. Please see our Privacy Policy for further information.

Let Us Know How We Can Do Better!

We strive to continually improve the service to our patients. We welcome your feedback through our patient satisfaction surveys. We encourage you to fill them out when you receive them. You can also contact our Office Manager (Denise (905) 455-3010 ext 237) to discuss any issues or concerns you may have.
